Tertiary Infotech Academy Pte Ltd · UEN 201200696W

MEOD Farm Observation and Control Checklist

Trace a live farm system, distinguish observed evidence from claims and identify operating, WSH, food-safety and maintenance controls.

Safety and Scope

- ☐ Emergency and movement rules understood
- ☐ Photography permission confirmed
- ☐ No equipment touched without permission
- ☐ Urgent hazards reported to trainer

Detailed Activity Sequence

1. Attend the site briefing and record permission boundaries.

Why: Live farm operations and commercial information require controlled access.

Acceptance evidence: Briefing and photography permission boxes completed.

2. Trace and sketch one complete water path.

Why: The flow path reveals system boundary, sample/dose points and failure exposure.

Acceptance evidence: Labelled reservoir-to-return sketch.

3. Compare crop condition across at least three positions.

Why: Spatial patterns help diagnose flow, light and shared-input effects.

Acceptance evidence: Three factual notes using location/time.

4. Record pH/EC/temperature/flow control evidence.

Why: A control needs setpoint, measurement, response and verification.

Acceptance evidence: Instrument/frequency/action table completed.

5. Inspect WSH, food safety, IPM, housekeeping and maintenance evidence.

Why: Production compliance spans workers, produce and equipment.

Acceptance evidence: One existing control and one improvement opportunity.

6. Peer-review and submit the evidence set.

Why: Review removes vague inference and prohibited information.

Acceptance evidence: Signed PDF with only permitted images.

Completion Checklist

- ☐ Emergency and movement rules understood
- ☐ Photography permission confirmed
- ☐ No equipment touched without permission
- ☐ Urgent hazards reported to trainer
- ☐ Flow sketch complete
- ☐ Crop observations use C/O/I labels
- ☐ Water and nutrient controls recorded
- ☐ WSH and food-safety controls recorded
- ☐ Maintenance/IPM evidence recorded
- ☐ No faces, credentials or trade secrets included
